EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark D. Saralino on April 4, 2005.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures 1-4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g).

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: claims 1-21 have been found to be allowable because the prior art of record either alone or in combination neither discloses nor makes obvious the particular feature of a parallax optic having a first portion comprising an array of parallax elements having a first pitch in a first direction and a second portion comprising an array of parallax elements having a second pitch substantially equal to one and half times said first pitch in said first direction, in combination with the other particular combination of features recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
